- Easements
- Survey Meanders
- Proposed Lot

MAP NOTES

This map was prepared by the Aleutian East Borough (AEB) in cooperation with the Department of Community and Economic Development (DCED) using funding from the Coastal Impact Assistance Program, TIED Multi-Grant Program, Bureau of Indian Affairs Transportation Planning and Funding from the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Joint Commission, USBA Rural Development, Alaska Department of Transportation and Public Facilities and DCED. The Alaska Native Tribal Health Consortium provided extensive sanitation facility records. The AEB contracted with McClintock Land Associates in May of 2002 to prepare the map.

This map is based upon a digital orthophoto prepared to National Map Accuracy Standards from August 25, 2002 photography (nominal scale 1" = 800'). An orthophoto in an aerial photo which has been corrected, by rectification to ground control stations, to remove distortions and warpage, generally caused by the ground topography and the oblique tilt and trim.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information does not include a thorough search of Recorder's Office records. Utility location is particularly imprecise and shows only the main lines as the service lines have been omitted for clarity. Generally, the information is current as of January 2005.

This map should not be construed as a survey, on-site surveys should be conducted prior to engineering and/or construction.

COORDINATE SYSTEMS

Horizontal Datum—NAD 83 Alaska State Plane Zone 8 (NRS1)
based on CORS STATION Bay 2' COU2 BAY
Vertical Datum—is based on prior Topographic / Bathymetric survey conducted by Peratovich, Nottingham & Drage, Inc.(PND) on 08-05-02.

TOPOGRAPHIC & PLANIMETRIC DATA

All topographic and planimetric data was collected utilizing stereo photography synchronized with the photography used for the orthophoto production. Topographic data was prepared to National Map Accuracy Standards for a 2' contour interval. Topographic data located in densely vegetated areas should be considered less accurate and may not meet these standards chronometrically.

SCALE: 1"=100'
Date of Photography: August 25, 2002 SCALE IN FEET
Magnetic Declination computed by U.S.G.S. Geomag
Program using AK-2000.COP model as of March 27, 2003.
