

ODDS Selection Rates for 2021

Longline Gear - 23.35%

Pot Gear - 29.92%

Trawl Gear - 19.29%

EM Longline and EM Pot Gear - 30%

Declaring The Correct Gear In ODDS

There has been some confusion in the fleet regarding logging certain gear types in ODDS. If during the trip you will be using Pot gear and that Pot gear is strung together this is still Pot gear and not Hook and Line gear.

- * Longline or Hook & Line Gear – Declare this gear type if using hooks of any kind
- * Pot Gear – Declare this gear type if using pots of any kind (even if strung together)

Ports Deploying From in 2021

As outlined in the Annual Deployment Plan (ADP) for 2021, due to the ongoing COVID – 19 pandemic NMFS will only be deploying observers from certain ports in Alaska.

- Akutan
- Dutch Harbor/Unalaska
- False Pass
- Homer
- Juneau
- Ketchikan
- King Cove
- Kodiak
- Nome
- Petersburg
- Sand Point
- Seward
- Sitka
- Yakutat

*In the event a logged trip is selected for observer coverage from a port not listed, you can ask the observer provider for a release

*The list may be modified throughout the year and the modification to the list will be provided through a public notice
